EDUCATION

Carnegie Mellon University, Heinz College, Pittsburgh, PA & Washington, D.C.

August 2025 - May 2027

Master of Science in Public Policy & Management - Data Analytics

- AI Management Concentration

University of South Florida, Tampa, FL

September 2021 - December 2024

B.S. Econometrics & Quant. Economics | B.A. Intl. Studies

- Minor in Legal Studies
- Fall 2024 Exchange Program, Pantheon-Assas University of Paris II, Graduate-Level Econometrics & Data Analytics
- Summer 2024 PPIA Fellow, Data Analytics & Public Policy, Carnegie Mellon University

PROFESSIONAL EXPERIENCE

Deloitte GPS, Roslyn, Virginia

June 2026 – August 2026

Summer Scholar – Data Management Solutions (Incoming)

United Nations Economic & Social Commission for Western Asia, Beirut, Lebanon

January 2025 - July 2025

Junior Consultant – Data & AI Analyst

- Developed a hybrid Econometrics/Machine Learning forecasting tool on AWS and co-authored a proposal for Al-Minhaj, an AI-powered policy support system integrating real-time simulation and predictive modeling to guide policy decisions for Arab UN member states
- Tested statistical methodologies of 10+ global economic and technology indices; coded and integrated four new indicators into ESCWA's index simulator to enhance accuracy and coverage

U.S. Department of State - U.S. Mission to Yemen, Riyadh, Saudi Arabia (Remote)

September 2024 - December 2024

Economic Data Research Intern

- Processed and analyzed 500+ data points weekly using Python (BeautifulSoup, NLTK) and ArcGIS from Arabic/English sources and 200+ satellite images, delivering economic intelligence and human rights reporting to 15+ State Department stakeholders with automated NLP workflows reducing manual collection time by 40%

U.S. Defense Intelligence Agency - U.S. Central Command, Tampa, FL

September 2023 - May 2024

Conflict Tracking & Mapping Intern

- Led 10-person team delivering daily intelligence updates to senior defense officials, updating interactive GIS maps with 150+ monthly conflict incidents and reducing information lag time from 48 hours to 6 hours through coordinated geospatial analysis

American Task Force on Lebanon, Washington, D.C.

May 2023 - July 2023

Policy Analytics Intern

- Developed a SQL-based data tracking system for monitoring \$500M+ in U.S. aid to Lebanon and led strategic policy outreach, engaging 25+ congressional offices, coordinating a congressional delegation, and producing 60+ intelligence briefs distributed to 5,000+ stakeholders.

PROJECTS

MIT Energy Hackathon Finalist (2025) – Developed AR/AI application for COMSOL's Multiphysics software to optimize HVAC

AI Case Competition Finalist (2025) – Developed LLM solution for Allegheny County Department of Human Services

World Bank Youth Delegate (2024) – Selected among 500+ global applicants to lead "Machine Learning for Peace Project 2.0"
